**STANDARD Base Cabinet Specifications**

**CABINET CONSTRUCTION**

- 1** Cabinet fronts
  - 3/4" solid wood
  - Front stiles are pocket drilled and assembled with 1-1/4" screws for rugged durability
- 2** Side Panels
  - 3/8" particle board
  - Vinyl covered on both sides
  - Glued and stapled in a 3/8" dado in the cabinet's front frame.
- 3** Back panels
  - 3/8" particle board
  - Vinyl covered on inside only
  - Glued and nailed in a 3/8" dado and stapled to the hang rail and cabinet bottom.
- 4** Hanging rails
  - 3/4" x 1-1/2" all wood
  - Installed on sides and back
- 5** Standard toe kick: 4-1/2" high x 4" deep
- 6** Shelves
  - Fixed 1/2" MDF
  - Bullnose, foil-covered front edges
- 7** Drawers
  - 1/2" MDF
  - NOTE: Cabinets 27"-36" wide use 1/2" finished solid wood**
  - Bullnose, foil-covered front edges
  - Dovetail construction
  - Drawers glides smoothly on self-adjusting ball bearing nylon guides
- 8** Doors
  - Butt Doors: Standard on 27"-36" wide cabinets; available on 24"
- 9** Floor Panels
  - 3/8" particle board
  - Vinyl covered on inside only.

**ALL WOOD PACKAGE**

added to base cabinets includes above features and

- 3/8" plywood on cabinet side, back and floor panels
- Fixed 1/2" plywood shelves
- 1/2" finished solid wood drawers

**Finish**

All cabinet front and door surfaces receive stain and a catalyzed clear or a catalyzed paint finish. Our finish provides a deep, rich wood tone that is resistant to household chemicals, water, food stains and mild acids.

**Hinges:** Hidden, self-closing adjustable hinge.

## Standard Wall Cabinets

Standard Wall Cabinets range from 9" to 48" wide. 12" to 42" high and are 12" deep.

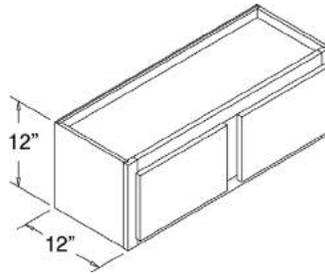

Butt Doors (shown above): A pair of doors that are sized to cover a wide opening without a center stile between them. Typically, a 1/8" gap is allowed between the butt doors.

**IMPORTANT NOTE**

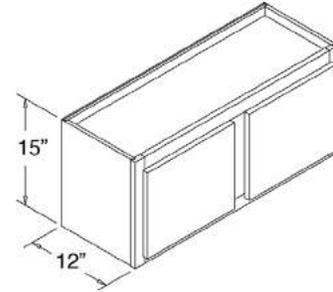

To ensure proper symmetrical door alignment when stacking Wall cabinets, use caution not to combine Butt door and non-Butt door cabinets.

## Refrigerator Wall Cabinets

Refrigerator Wall Cabinets range from 12" to 24" high and are 24" deep.

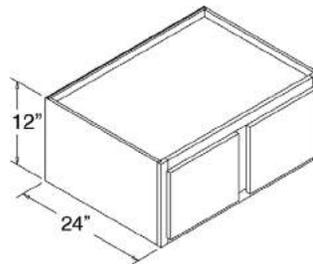

Butt Doors (shown above): A pair of doors that are sized to cover a wide opening without a center stile between them. Typically, a 1/8" gap is allowed between the butt doors.

### IMPORTANT NOTE

To ensure proper door function on a Refrigerator Wall cabinet, allow enough clearance for the top hinge(s) on the refrigerator door. Review refrigerator manufacturer's specifications for dimensions and clearance requirements.

**Microwave Wall Cabinets**

Microwave Wall Cabinets are 30" wide. 30" to 42" high and 12" or 21" deep.

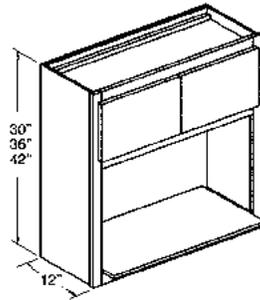

Butt Doors (shown above): A pair of doors that are sized to cover a wide opening without a center stile between them. Typically, a 1/8" gap is allowed between the butt doors.

**IMPORTANT NOTE:**

When a Microwave Wall cabinet is used in a design, remember to place the cabinet between two adjacent cabinets OR one cabinet and the wall. Review microwave manufacturer's specifications for dimensions and adequate clearances for venting requirements.

WR301515

**Corner Wall Cabinets**

Corner Wall Cabinets range from 24" to 42" high

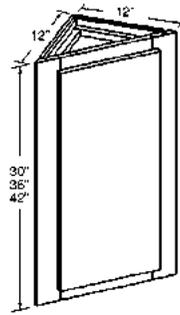

**IMPORTANT NOTE**

To ensure proper door function, cabinets or other design elements deeper than 12" should not be placed on either side of the Corner Wall cabinet

If the Corner Wall cabinet is deeper than the adjacent cabinets, fillers are recommended for placement on either side of the Corner Wall cabinet.

**Standard Base Cabinets**

Standard Base Cabinets are 34-1/2" high by 24" deep and range from 9" to 48" wide.

Single door Standard Base cabinets are hinged left and can be reversed in the field.

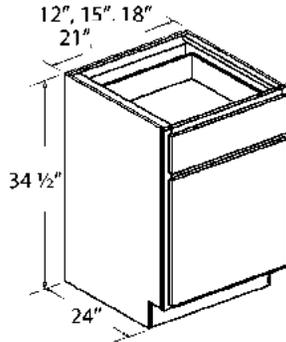

Inset toe kick construction requires TK8P matching toe kick - must be ordered separately.

Butt Doors (shown above): A pair of doors that are sized to cover a wide opening without a center stile between them. Typically, a 1/8" gap is allowed between the butt doors.

**Corner Base Cabinets**

Corner Base Cabinets are 34-1/2" high

Inset toe kick construction requires TK8P matching toe kick - must be ordered separately.

**IMPORTANT NOTE**

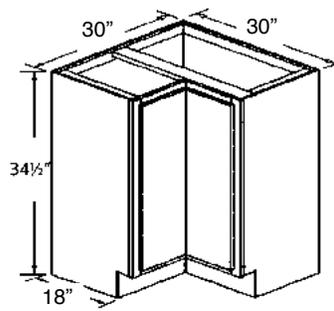

To ensure proper door function on a Corner Base cabinet, a 3" Filler or Dishwasher Return is recommended for placement between the cabinet and any appliance or other design element deeper than 24".

In addition the Corner Base cabinet should be hinged opposite (e.g., if a range is placed to the right of a Corner Base, the cabinet should be hinged left.)

### Universal Design Base Cabinets

Universal Design Base Cabinets are 32-1/2" high by 24" deep. The toe kick is 9" high and 6-1/2" deep to accommodate most wheelchair footrests.

Single door Universal Design Base cabinets are hinged left and can be reversed in the field.

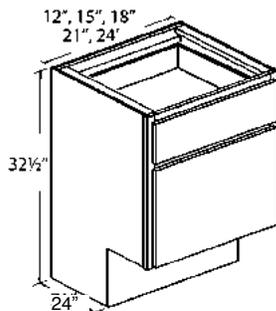

Inset toe kick construction requires HTK8P matching toe kick - must be ordered separately.

Butt Doors (shown above): A pair of doors that are sized to cover a wide opening without a center stile between them. Typically, a 1/8" gap is allowed between the butt doors.

**12V Dimmable Driver - 15W  
12 Port ML Block**

- Compatible with standard "legacy" dimmer switches. Use with orange color coded products.
- Daybreak Dimmable Driver allows user to dim their LED cabinet lighting at same time as their overhead lighting using existing "legacy" dimmer switches.
- Multiple drivers may be tied into the same dimmer switch.
- See chart below for specifications.

	Max Load	Stock
SA40590	15 Watts	◆

**12V Driver - 6W  
4 Port ML Block**

- Exclusively designed for LED products used indoors. Use with orange color coded products.
- Switch mode power supply with 12VDC constant output voltage.
- 6W driver ideal for small number of low wattage lights.
- Provides overload protection, open circuit protection, heat protection.
- See chart below for specifications.

**Vanity Cabinets**

Vanity cabinets range in size from 18" to 48" wide, 31-1/2" and 34-1/2" high and 21" deep.

Inset toe kick construction requires TK8P matching toe kick - must be ordered separately.

Butt Doors (shown above): A pair of doors that are sized to cover a wide opening without a center stile between them. Typically, a 1/8" gap is allowed between the butt doors.

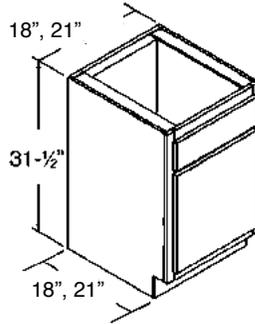

**IMPORTANT NOTE:**

When placing a sink base cabinet in a design, select a cabinet at least 3" wider than the sink to allow for installation clips. Review manufacturer's specifications for dimensions and adequate clearance requirements.

**Wood & Paint - Characteristics & Variations**

**Wood** - Naturally occurring variations in wood such as color, grain, mineral streaks and knots are not considered defects.

Color variations are a natural occurrence due to species, age, character of cabinets, and exposure to UV light and sunlight. Such variations and changes are not considered defects. For these reasons, new and/or replacement cabinets may not match display samples and/or existing cabinets.

Warping is the bending or twisting of a part. To measure a door or shelf, lay the product on a flat surface and measure the gap from the surface to the part. The standard allowable tolerance for wood is 1/8" per lineal foot. Materials that fall within specification are considered acceptable, as a part of the natural characteristics of wood.

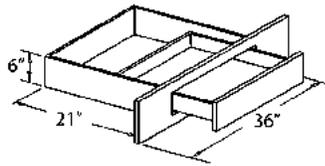

**Paint finishes** are uniquely different from standard wood finishes. On all wood products, expansion and contraction are typical due to changes in climate conditions. Due to this normal movement, paint finishes may develop slight separation lines, finish breaks and seam lines. These will be most notable at stile, rail and panel joints. Joint separations may become more noticeable over time and through season changes.

With the use of select hardwoods and veneers, some of the grain pattern and wood characteristics (checks & pin knots) as well as seams & joints will remain visible through the paint finish. These are normal and are not considered quality defects.

Seam lines and finish breaks are normal characteristics of paint finishes and should not be considered a reason for product replacement. Over time, there may be a slight color shift, due to exposure to natural and artificial light.

**Samson Cabinetry Limited Lifetime and Five-Year Warranty**

Samson cabinets have been manufactured under the highest standards of quality and workmanship.

**Lifetime Limited Warranty on Drawer Guides and Hinges**

Samson warrants to original consumer purchasers for as long as they own their home that the drawer, drawer guides and hinges used in the manufacture of Samson cabinetry products shall be free from defects in material and workmanship under normal use.

**Five Year Limited Warranty on Cabinets**

In addition, Samson warrants to original consumer purchasers for a period of five years from the original date of purchase that all other components of Samson cabinetry shall be free from defects in material and workmanship under normal use.

**General Warranty Guidelines**

Should Samson cabinetry fail during the applicable warranty period due to defects in the material or workmanship under normal use, Samson, in its discretion, will repair or provide the parts necessary to replace the defective products.

This warranty does not cover products that are misused, abused, mishandled, improperly installed, improperly stored, changed, modified or subject to extreme temperatures or extreme moisture levels. This warranty is not valid for products used for any purpose other than the purpose for which they were originally intended. This warranty does not cover the cost of installation, removal, subsequent damage or transportation of the defective product, regardless of whether the work was performed by a contractor, service company or the consumer.

Variations in color and grain pattern are a natural characteristic of wood. Color changes also may result from exposure to light and other elements that are part of the aging process. These material variations and changes are not covered by this warranty. Samson reserves the right to substitute discontinued product with the most similar product in styling, wood species and color available at the time a claim is submitted.

This warranty is the exclusive warranty of Samson and is in lieu of all other warranties, expressed or implied. In no event shall Samson be liable for consequential, indirect or incidental damages resulting from the installation, use or failure of its product.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights that vary from state to state.

To submit a claim under this warranty, contact your nearest Samson dealer or send a letter explaining the defect along with a dated sales receipt as proof of purchase to: Samson Claims Department, P.O. Box 30, Warren, OH 44482-0030
